

Hi Life Group Leaders! Jim here! Jared and I were discussing how we could make a video to promote the good things happening in your groups- and we want to make a little video to give folks a sneak peak of what it's like in a Life Group of Morning Star. Only problem? They're not all the same! So that's where you come in!

If you've got an iPhone 11 or better, we'd love for you to film some video of your group- think of the "big things" about your group- **people praying for one another, laughing hugging, welcoming one another, studying, hard moments shared, good meals shared, playing games, serving together**- all those things that make your group what it is!

Some helpful tips:

1. Please hold your phone horizontally (wider than it is tall). Vertical video makes me cry, so please save me from drowning in tears :)
2. Don't feel like you have to get everyone in every shot- it's better to be closer to people than be zoomed out and have a shot where everyone looks tiny.
3. We're going to be playing a song over the footage, so it's totally ok to have people talking/laughing/sharing- the audio will remain confidential and not be seen by anyone but me when I edit the footage together.
4. Think multiple short clips- highlighting the different aspects of your group- not by "telling" but by "showing" folks what it looks like. So I'm not needing a 45 minute video of your whole group, just a handful 30 second or less clips will do all we need. Thanks!
5. I'm happy to take your footage however you prefer- meeting at the church office, on a Sunday morning, or me coming to you- you can contact me at 541-971-3328 or Jim@MStar.church and let me know when you've filmed some of your fine group, and we can figure out the way that works for you best.

Thanks so much for giving people a glimpse into your group, and an insight into what it is that God is doing through the beautiful thing of people coming together and drawing near to Him and to each other!
