- Masks
 - John's intro
 - We are all on the same team with the same mission. We have a diversity of opinions and that is a healthy thing.
 - This past Sunday was pretty rough and very unclear with our people in regards to our mask expectations.
 - John and Scott had a conversation with the elders on Thursday and we are bringing it to this team today to discuss and hopefully bring some clarity and all get on the same page
 - Scott shared his thoughts and a discussion with the team followed regarding various perspectives and thoughts
 - The team recognized a need to care spiritually for our people who are in every school of thought
 - Scott: Where I'm landing is trying to take this away from an emotion of a policy decision and sharing with the body the principle of mask wearing. Share with the body of why he chooses to do what he will do and the example that he and the elders and leadership team will set.
 - John summarized and clarified the plan moving forward
 - Scott will share on Sunday that we are pleased to not have to limit numbers anymore. With more people in the building we need to continue to encourage people to wear masks. Scott will be wearing one along with the leadership, staff, and elders and setting the example for people to follow.
- Josh Gordon closed in prayer
